

Alliance of International Corporate Advisors (AICA)

ALLIANCE OF INTERNATIONAL
CORPORATE ADVISORS

About AICA

The Alliance of International Corporate Advisors (AICA) offers global independent and innovative advice from M&A boutiques that are committed to mid-market transactions (\$US 5-500m). The alliance amplifies the depth of knowledge and expertise of all the individual members to benefit our clients.

AICA offers impartial, conflict free advice and unquestioned confidentiality as members are free of any ties to financial institutions. Whether you are a family owned business, a private equity fund or a multinational – leveraging off our relationships, our shared value system and our sector and M&A expertise adds value for you.

Our members are drawn from backgrounds in industry, law and finance and are successful entrepreneurs in their own right who can listen, brainstorm and help clients through strategic issues confronting their businesses.

AICA members are characterized by being thinkers and originating ideas for their clients. AICA is also active in emerging markets – bringing opportunities to its clients and pushing boundaries in an expanding world. AICA is a "members led" organization, relying on the skills and energy of its talented people.

AICA is structured as a Swiss Co-operative.
